

ROAD CONSTRUCTION AGREEMENT

WE THE TOWNSHIP OF LUCAS AND AMERICAN MATERIALS DO HERE-BY ENTER INTO THE FOLLOWING AGREEMENT.

American Materials agrees that the first mile of road starting at Highway Q in the township of Lucas going to Hall Estate Road will have the following done: Blacktop will be taken up and will be used for fill and to widen the road to approximately Twenty Eight (28) feet. Twelve (12) inches of breaker run will be put in cuts that are made and a minimum of six (6) inches of base will cover the road. Road will not be blacktoped until the following year and if more base is needed it then will be added so road is ready for blacktop, this cost will be the responsibility of American Materials and all blacktop cost will be the Town of Lucas.

The following year (1993) the next mile of road American Materials agrees to the same agreement as to the first mile.

American Materials further agrees that they will be liable for any and all damages done to the road by them driving on it once it has been brought up to standard specifications during the duration of the pit. This agreement is entered into for the West two (2) miles of Olson Road and American Materials will agree not to use the East End of Olson Road as in the past.
